Hiren boot dvd iso

Please note that, we recommend USB Botang for Windows PE edition. From DVD, Botang can wait long time on the windows symbol (logo) screen in some computers. If Botang takes 8-10 minutes, please try Botang from USB. If you're using Windows 7 and above, just click the ISO file, click Drive Disk Picture, choose your DVD drive, and then click Burn. There is no need to select disk authentication after burning, keep it unselected. CDBurnerXP will work if you do not have an ISO burner in an OS built or if you want to use an alternative software.
